## **Independent Accountants' Examination Report**

To the Audit Committee and Management  
Paxos Trust Company, LLC

### **Report on Management's Assertion regarding the Pax Dollar Redeemable Tokens and Redemption Assets**

#### *Opinion*

We have examined management of Paxos Trust Company, LLC's (the Company) assertion on page 3 of the Pax Dollar (USDP) Redemption Assets Report as of June 9, 2025 and June 30, 2025 at 5:00 PM Eastern Time (the USDP Redemption Assets Report) regarding the total USDP natively minted tokens and total USDP redeemable tokens outstanding (Exhibit A), the composition of redemption assets by asset type (Exhibit B), and the comparison of the two (Exhibit C), which includes the criteria used by management of the Company as a basis for the assertion (Management's Assertion).

In our opinion, Management's Assertion is fairly stated, in all material respects.

#### *Basis for opinion*

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We are required to be independent and to meet our other ethical requirements in accordance with relevant ethical requirements related to the engagement. We believe that the evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

#### *Other matters*

Management of the Company has referenced information on websites throughout the USDP Redemption Assets Report. The information on these websites has not been subjected to our examination procedures, and accordingly we do not express an opinion, conclusion or any other form of assurance on this information.

Management of the Company is responsible for ensuring the Company's terms related to USDP token purchases and redemptions and the definitions of purchase and redemption rights applicable as of the report dates continue to be available to support an understanding of the USDP Redemption Assets Report.

Our opinion is not modified in respect of these matters.

#### *Responsibilities for Management's Assertion*

Management of the Company is responsible for Management's Assertion as well as:

- designing, implementing and maintaining internal control relevant to the preparation of Management's Assertion such that it is free from material misstatement, whether due to fraud or error;
- selecting or developing suitable criteria as a basis for Management's Assertion and appropriately referring to or describing the criteria used; and
- fairly stating Management's Assertion.

*Our responsibilities*

The attestation standards established by the American Institute of Certified Public Accountants require us to:

- plan and perform the examination to obtain reasonable assurance about whether Management's Assertion is fairly stated, in all material respects; and
- express an opinion on Management's Assertion, based on our examination.

We exercised professional judgment and maintained professional skepticism throughout the engagement. We designed and performed our procedures to obtain evidence about Management's Assertion that is sufficient and appropriate to provide a basis for our opinion. The nature, timing, and extent of the procedures selected depended on our judgment, including an assessment of the risks of material misstatement of Management's Assertion, whether due to fraud or error. We identified and assessed the risks of material misstatement through understanding Management's Assertion and the engagement circumstances. We also obtained an understanding of the internal control relevant to Management's Assertion in order to design procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of internal controls.

## **Pax Dollar (USDP) Redemption Assets Report as of June 9, 2025 and June 30, 2025 at 5:00 PM Eastern Time**

### *Background<sup>1</sup>*

Paxos Trust Company, LLC (the Company or Paxos) is a New York limited purpose trust company. The Company received its trust charter from the New York Department of Financial Services (NYDFS) in 2015 and has been a long-time leader in both crypto asset services and the creation of blockchain technologies for the financial world. As the prudential regulator of companies engaged in virtual currency business activity in New York, NYDFS has requirements, standards, and controls on the stablecoins issued by its regulated entities. This includes guidelines published by the NYDFS in the industry letter dated June 8, 2022,<sup>2</sup> which applies to entities licensed under 23 NYCRR Part 200 or chartered as limited purpose trust companies under the New York Banking Law that issue U.S. Dollar-backed stablecoins under the supervision of the NYDFS (the NYDFS Guidelines). This USDP Redemption Assets Report has been prepared by Management of Paxos to fulfill the requirements set out in the NYDFS Guidelines.

Management of Paxos is responsible for the completeness, accuracy, and validity of the USDP Redemption Assets Report as of June 9, 2025 and June 30, 2025 at 5:00 pm Eastern Time (the Report Dates).

### *Management's Assertion*

Management of Paxos asserts that as of June 9, 2025 and June 30, 2025 at 5:00 pm Eastern Time:

- the total USDP natively minted tokens and total USDP redeemable tokens outstanding (Exhibit A), the composition of redemption assets by asset type (Exhibit B), and the comparison of the two (Exhibit C), are prepared in accordance with the AICPA 2025 Criteria for Stablecoin Reporting: Specific to Asset-Backed Fiat Pegged Tokens<sup>3</sup> (the AICPA Criteria).
- the total redemption assets (Exhibit B) are equal to or greater than total USDP redeemable tokens outstanding (Exhibit A), as presented in Exhibit C. The criteria we used in making this assertion were that the total redemption assets, which are defined as unencumbered assets held by the Company in segregated accounts on behalf of the USDP token holders and measured as described in Exhibit B, are equal to or greater than the USDP redeemable tokens outstanding, which are defined in the AICPA Criteria.
- the Company has applied the requirements of Part 2 of the New York Department of Financial Services (NYDFS) industry letter dated June 8, 2022<sup>2</sup> (NYDFS Guidelines) regarding its redemption assets, as presented in Exhibit B.

**Exhibit A: Total USDP Natively Minted Tokens and Total USDP Redeemable Tokens Outstanding**

The following table summarizes the types of USDP tokens:

	USDP Tokens (in quantity of tokens)	Blockchain Ethereum <sup>ii</sup>		Blockchain Solana <sup>iii</sup>		Total	
		June 9, 2025	June 30, 2025	June 9, 2025	June 30, 2025	June 9, 2025	June 30, 2025
a.	Total USDP natively minted tokens	71,561,431	65,941,431	1,662,018	2,012,018	73,223,449	67,953,449
b.	Less temporary USDP nonredeemable tokens	N/A	N/A	N/A	N/A	N/A	N/A
	Temporarily access-restricted	N/A	N/A	N/A	N/A	N/A	N/A
	Time-locked	N/A	N/A	N/A	N/A	N/A	N/A
c.	Less permanent USDP nonredeemable tokens	N/A	N/A	N/A	N/A	N/A	N/A
	Permanently access-restricted	N/A	N/A	N/A	N/A	N/A	N/A
	Total USDP nonredeemable tokens <sup>i</sup>	N/A	N/A	N/A	N/A	N/A	N/A
d.	Total USDP redeemable tokens outstanding	71,561,431	65,941,431	1,662,018	2,012,018	73,223,449	67,953,449
i	All USDP tokens are redeemable. There are no temporary or permanent USDP nonredeemable tokens						
ii	Blockchain Ethereum refers to the smart contract running on Ethereum at 0x8e870d67f660d95d5be530380d0ec0bd388289e1						
iii	Blockchain Solana refers to the smart contract running on Solana at HVbpJAQGNpkgBaYBZQBR1t7yFdvaYVp2vCQQfKKEN4tM						
NOTE: Refer to the Company’s terms related to USDP token purchases and redemptions and the definitions of purchase and redemption rights (including which holders have such rights) <sup>4</sup>							

The tokens included in this Exhibit A incorporate the USDP redeemable tokens of Paxos Trust Company, LLC. The USDP token is a cryptographic token, which allows financial market participants to transact in a crypto asset that has been strictly pegged 1:1 to the U.S. dollar by the Company. USDP is built on the Ethereum and Solana public blockchains. As such, the total number of USDP tokens in circulation is viewable through any publicly available Ethereum block explorer and Solana block explorer (e.g. Etherscan and Solscan).

## Exhibit B: Composition of Redemption Assets by Asset Type

The following table summarizes redemption assets by asset type in United States Dollar (USD):

	June 9, 2025	June 30, 2025
Cash	\$67,282,260	\$67,050,318
Government money market funds, at net asset value	-	-
Repurchase agreements, at fair value	\$6,196,000	\$917,000
Obligations of U.S. Treasury, at fair value	-	-
<b>Total</b>	<b>\$73,478,260</b>	<b>\$67,967,318</b>

The redemption assets included in this Exhibit B relate to the redemption assets supporting the USDP redeemable tokens reported in Exhibit A.

The Company maintains the redemption assets securing USDP in segregated accounts that are unencumbered and held on behalf of USDP token holders in one or more of the following forms: (i) fiat currency held in Federal Deposit Insurance Corporation (FDIC)-insured bank accounts; (ii) (a) investments (including through overcollateralized overnight reverse repurchase agreements) in debt instruments that are expressly guaranteed by the full faith and credit of the United States Government; and/or (b) money-market funds composed of such debt instruments. Amounts backed by debt instruments that are expressly guaranteed by the full faith and credit of the United States Government are subject to market pricing risk.

### 1. Cash

The Company's cash is held at commercial banks and cash held at a specific bank may at times exceed the FDIC limit of \$250,000. As of June 9, 2025 and June 30, 2025, the uninsured FDIC demand deposits at commercial banks totaled \$798,353 and \$798,353, respectively. The Company has obtained excess deposit insurance, in the amount of \$50,000,000, from Paxos Insurance Company Ltd, a captive insurance company for the Company and its affiliates. The following table summarizes cash by type of account, regulatory agency, and geographic location.

Type of Account	Regulatory Agency	Geographic Location	June 9, 2025	June 30, 2025
For the benefit of authorized token holders	Federal Reserve Board	United States	\$67,282,260	\$67,050,318
<b>Total</b>			<b>\$67,282,260</b>	<b>\$67,050,318</b>

### 2. Government Money Market Funds

Government money market funds hold investments in direct obligations of the Government of the United States and reverse repurchase agreements on such obligations. As of June 9, 2025 and June 30, 2025, the Company held no government money market funds.

### 3. Repurchase Agreements, at Fair Value

Repurchase agreements are agreements with selected commercial banks and broker-dealers, under which the Company acquires securities as collateral (debt obligation) subject to an obligation of the counterparty to repurchase and the Company to resell the securities (obligation) at an agreed-upon time and price. The Company, through a custodian or a sub-custodian, receives delivery of the underlying securities collateralizing repurchase agreements. The Company is not permitted to sell or repledge the securities acquired as collateral. Repurchase agreements are exposed to credit and liquidity risk. To manage these risks, the repurchase agreements entered by the Company are overcollateralized such that the fair value of the underlying collateral is greater than the par amount of the repurchase agreement. The Company monitors the fair value of the underlying collateral on a daily basis, with additional securities obtained as collateral as necessary. Since the repurchase agreements mature overnight, the par amount of the repurchase agreement is considered to be equal to fair value as the amount is deemed to be a cash deposit with no risk of change in value as of the end of each day. The following table summarizes the remaining contractual maturity of the agreements by counterparty at fair value:

Repurchase Agreements as of June 9, 2025						
Counterparty	Collateral	Coupon Rate	Purchase Date	Maturity Date	Par	Fair Value
Bank 1 in United States	Obligations of U.S. Treasury	4.25%	6/9/2025	6/10/2025	\$6,196,000	\$6,196,000
<b>Total Repurchase Agreements</b>						<b>\$6,196,000</b>

Repurchase Agreements as of June 30, 2025						
Counterparty	Collateral	Coupon Rate	Purchase Date	Maturity Date	Par	Fair Value
Bank 1 in United States	Obligations of U.S. Treasury	4.38%	6/30/2025	7/1/2025	\$917,000	\$917,000
<b>Total Repurchase Agreements</b>						<b>\$917,000</b>

### 4. Obligations of U.S. Treasury

Obligations of U.S. Treasury are held by a qualified custodian. The Company only holds U.S. Treasury bills that are three months or less from their respective maturities. As of June 9, 2025 and June 30, 2025, the Company held no obligations of U.S. Treasury.

## USDP Redemption Assets Report

**Exhibit C: Comparison Between the Redemption Assets and the USDP Redeemable Tokens Outstanding**

The following table summarizes the redemption assets and the USDP redeemable tokens outstanding:

	June 9, 2025	June 30, 2025
Redemption assets	\$73,478,260	\$67,967,318
Less: Amount of USDP redeemable tokens outstanding <sup>i</sup>	73,223,449	67,953,449
Subtotal prior to timing difference	\$254,811	\$13,869
<b>Timing differences:</b>		
USDP tokens purchased but not yet minted	-	-
USDP tokens redeemed but not yet paid	-	-
Subtotal prior to temporary difference	\$254,811	\$13,869
<b>Temporary differences:</b> <sup>ii</sup>		
USDP access-restricted tokens	N/A	N/A
USDP time-locked tokens	N/A	N/A
<b>Surplus (Deficit)</b> <sup>iii</sup>	\$254,811	\$13,869
i The amount of USDP redeemable tokens outstanding includes requests for purchases and redemptions that have not yet been processed due to timing differences		
ii All USDP tokens are redeemable. There are no temporary or permanent USDP nonredeemable tokens		
iii The Company's terms stipulate that for each USDP redeemable token outstanding there is \$1 available assets for redemption. This surplus indicates that asset-backing levels are in accordance with the Company's terms <sup>4</sup>		

The tokens and redemption assets included in this Exhibit C relate to the USDP redeemable tokens reported in Exhibit A and redemption assets reported in Exhibit B.

**Appendix: General considerations related to Crypto Assets<sup>1</sup>**

As of the date of this report, crypto assets remain an evolving area of technology and marketplace activity. Those who choose to invest in crypto assets should inform themselves of the general risks and uncertainties associated with such assets.

(1) Crypto assets are owned anonymously. While the public keys of virtual wallets holding crypto assets reside on the distributed networks and can be viewed publicly, the ownership of the wallets are normally not registered and therefore, anonymous. Ownership of crypto assets is evidenced primarily by the possession of the underlying private key (e.g. passcode). The possessor of the private key controls the corresponding crypto asset wallet.

(2) Risk of irreversible transactions. Transactions for most crypto assets that occur over the blockchain are generally irreversible, even if such transactions occur fraudulently or accidentally. If a private key is lost or fraudulently used, the crypto assets in the corresponding wallet may not be recoverable.

(3) Regulatory uncertainty. Legislative and regulatory changes or actions at the state or federal level may change or affect the use, transfer, exchange, and value of crypto assets. The effects of any such changes are not determinable as of the date of this report.
